Introduction

All Heart Inc. LOVES Teachers! Teacher Closet is an initiative designed to bridge the gap between our community and classroom teachers.

Did you know that over 90% of teachers spend an average of \$500 on classroom supplies throughout the year? (National Education Association). Teacher Closet allows our community a year round opportunity to provide continuous support to teachers by providing a free shopping experience for needed classroom supplies. We've partnered with teachers and formed a list of common items that are often purchased out of pocket and stocked those items for teachers to "shop" for free.

By offering support through our Teacher Closet initiative, we hope to be a positive platform that initiates ongoing conversations about the conditions that affect public school classroom teachers. We help to fill gaps between what school districts are able to provide and the daily needs of educators, support new teachers as they create their classroom environments, provide resources for teachers changing positions or teaching assignments, and aid teachers in doing more for and with their students.

About Us

Teacher Closet is a community resource available to ANY school employee with a valid school district ID. Teacher Closet provides a free shopping experience for classroom supplies to school employees in our community. Stocked with common items often purchased out of pocket, this initiative empowers teachers to focus on what they do best: inspiring and educating our students.

In addition to providing tangible support, Teacher Closet is a platform to foster meaningful conversations about the conditions affecting public school educators and inspire positive change.
